YOUR LIFE, YOUR CHOICE

HOW TO COPE WITH PRESSURE

Raise your own awareness about pressure. It's hard to manage without understanding. We can't deal with something unless we know it is there.

ACCEPT RESPONSIBILITY

People blame their circumstances for avoiding action, we will never manage pressure as long as we think that's it someone else's responsibility to do it for us.

TAKE ACTION

The Universe rewards action, not thought. There are millions of people who think up wonderful ways for making money. Only the ones who do something about it get rich.

MONITOR PROGRESS

Unless we monitor consciously our ability to manage pressure, we run the risk of slipping into a pattern of behavior that produces stress instead of high performance.

THREE STEPS TO BEING A LOSER

1. Always take time to explain why you lost.

A LESSON IN LIFE

Everything happens for a reason. Nothing happens by chance or by means of good or bad luck. Illness, Injury, Love, Lost moments of true greatness and share stupidity all occur to test the limits of your soul. Without these small tests, if they be events, illness or relationships, life would be like a smoothly paved, straight, flat road to now here.

If someone hurts you, betrays you or breaks your heart, forgive them. For they have helped you learn about trust and the importance of being cautious to who you lean about trust and the importance of being cautious to who you open your heart to talk to people you have never talked before. Make every day count. Appreciate every moment and take from it everything that you possibly can, for you may never be able to experience it again. You can make of your life anything you wish. Create your own life and then go out and live it.

Always smile and be Happy.

Life is for you its more important. Grow greenly and happily in your life.
